### Imaginary Journey

You are sitting in your Classroom.

Close your eyes.

You see a big plane A stewardess opens the door and asks you came in. The flight is going to Alaska. You sit down on a red easy chair besides the window. The plane started to fly. The school becomes smaller and smaller. The plane becomes faster and faster.

After only a few seconds you can see Alaska. There is a frozen sea and a Mountain range. The plane lands and you go out. Its starts to snow. Do you feel the cold snow and the cold wind on your skin? Its to cold, and you go into the plane again. You can see the grass and the bushes, which have become with now. The plane starts to fly.

Afer a long time plane lies over Germany. Then you can see the town where you live. And there is your school. The plane lands. You go out the plane. Its starts to rain. The school is near and so you start to run to it. After a few minutes you are in your classroom again. You sit down and open your eyes.
