### Kapitel 21: About the cold

I used to try and I'm still trying  
But see no land or even your hand  
Awaiting me to help me [get up] and out  
Of this fear of losing you  
Just in this moment you're turning away  
[And now you made me believe you won't fight]  
As you could bear the consequence  
But I'm the one who's left [and regrets]  
All mistakes I did because I had no words  
Than 'Let me love you, please!'  
And 'Don't leave me here!'  
All words you did not hear  
Before you're gone  
And said nothing  
Didn't leave a smile  
Just kissed to say good bye...
