

For my precious one

Lyrics

Von Cristina-SaDiablo

Kapitel 17: Tears of blood (new version)

Tears of blood

I write you these lines
with the blood of my tears
they drop on the floor...
Why do you want to see me crying?
every single tear is a gone memory

blind me...
light turns into beautiful darkness
stop up my ears...
the promises are forgotten and past
rob me of my voice...
my screams are taken by the wind

tears of blood become to a rose
so beautiful as you are
but that dangerous like you are
why do you want to hear my entreaties?
every single call is answered by a lough

blind me...
light turns into beautiful darkness
stop up my ears...
the promises are forgotten and past
rob me of my voice...
my screams are taken by the wind

There I'm lying lost and broken
unneeded and destroyed
forotten by time and you
Why have I got feelings?
I want to ban my heart!

blind me...
light turns into beautiful darkness
stop up my ears...
the promises are forgotten and past
rob me of my voice...
my screams are taken by the wind

rip up my chest gently
take away my cold heart
it's useless now for me...
so useless like eternity

stop up my ears...
the promises are forgotten and past

rip up my chest gently
take away my cold heart
it's useless now for me...
so useless like eternity
so useless like me
